

# Adults Guide – Maths Week 14

Here is the URL for a playlist for the next 5 lessons. It is recommended that the lessons are taught one a day, one after the other and in the correct order. **Please only complete lessons 11-15 this week.**

<https://www.youtube.com/watch?v=EmTeWLe7YMk&list=PLQqF8sn28L9xqMyqJ7xqbP7RpgBhVv4x3>

I find that these YouTube lessons can also move a little quick sometimes so pausing them and working out answers to questions and then playing them again is key.

If at any time you feel that you need a little more work for your child, there is a wealth of resources available for free at: <https://kids.classroomsecrets.co.uk/>

Children can log in and play interactive games and activities aimed at their year group.

## IMPORTANT NOTICE FOR MATHS LESSONS OVER THE NEXT 4 WEEKS:

The organisation that uploads these videos (NCETM) has continued to upload the lessons at a slightly slower rate than they did at the start of lockdown. As it stands they are two lessons shy of what we need, having uploaded 11, 12, 13 and not yet uploading 14 or 15.

However, they always have them uploaded and ready to go by the time the lessons start. So by the time you are reading this, lessons 14 and 15 will be uploaded.

I would therefore not be able to give any guidance on lessons 14 or 15, however, by now, I am sure that these youtube lessons are becoming increasingly self-explanatory.

Therefore, in the interest of using my time as best as possible, I will not adding the guidance for these maths videos on these documents moving forward. In writing them, I am almost always just repeating what the person on the screen says anyway – and now that Butterfly lion is finished, I think my time will be better spent finding suitable English activities that allow our children to get ready for year 5.

Each week – for the next 4 weeks, I will simply post the URL here and let you know which lessons to complete.

Of course, if you and your child are stuck on something, or if something doesn't make sense, please email me the lesson, the URL and the problem and I will get back to you with some guidance as soon as possible.
