

Dear year 1 children and parents

I hope you are all well and will enjoy doing some learning at home. I have given you and your child some activities to do together.

Please try to practise spellings every day. You can use the PowerPoint if you want to or just practise writing them out.

There is also a literacy activity for improving your child's vocabulary and some phonics and maths activities too.

Additionally, I have included some handwriting and number formation for your child to do - there is quite a lot, so don't feel you have to do it all at once. Little and often is usually best. We do one letter per day in school. So please don't feel you need to do it all at once. I have also attached a number line so that your child can continue to practise their counting (forwards and backwards). You could also ask them to tell you one more or one less than a given number. e.g. What is one more than 11? What is one less than 20?

Lastly, please continue to read and enjoy books with your child.

I do hope you enjoy working on these activities together.

Take care and stay safe.

Mrs Penn
